PROFESSIONAL EXPERIENCE

Cusorcart   **MAY 2025-Present**

Frontend Developer   *Remote*

- **Developed and maintained responsive web interfaces** using modern frontend technologies (React.js and Next.js) to ensure smooth user experiences across the e-commerce platform for vendors and customers.
- **Collaborated with cross-functional teams** including backend developers and product designers to implement scalable features such as product listing modules, vendor dashboards, and real-time notifications.
- **Optimized frontend performance and accessibility**, ensuring fast page loads, mobile-first designs, and SEO-compliant structures for improved discoverability and user engagement.

Cybercharm   **DEC 2024-FEB 2025**

Full-stack Web Developer   *Remote*

- **Engineered interactive web interfaces** using modern JavaScript frameworks (such as React.js or Vue.js), delivering seamless UX for client-based and internal projects across various industries.
- **Translated UI/UX wireframes into clean, maintainable code**, collaborating closely with designers and backend developers to ensure consistency and responsiveness across devices.
- **Designed and integrated PostgreSQL/MongoDB databases**, ensuring efficient data management, security, and smooth API interactions across multiple client projects.
- **Led end-to-end feature development**, from requirement gathering to deployment, using Git for version control and Docker for streamlined local and production environments.
